

## Weather Policy.

### Wet Weather or Hail:

- In the event of wet weather or hail the stoppage, postponement or abandonment of the game will rest with the official referee.
- When no official referee is present, the decision rests with the CUSC ground official.

### Unusual Hot and Humid Weather:

- In the event of extreme hot or humid weather the stoppage, postponement or abandonment of the game will rest with the official referee.
- Referees may consider including additional drinks breaks for players in conditions of high risk.
- The positive effects of rest breaks should be maximised by allowing players to rest in naturally shaded areas, providing ice packs and providing additional fluids to allow participants to spray or douse themselves to assist cooling.
- Regular drinking opportunities should be provided.
